

Submitter: Roger Knudson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB869

Chair Sollman, Vice-Chair Findley, and members of the committee, my name is Roger Knudson and I live in Eugene. I am passionate about protecting our planet from the worst consequences of climate disruption. One of the first things my wife and I did after moving to Eugene in September was to replace the methane gas furnace in our new house with an electric heat pump. Our energy bill immediately dropped significantly! I strongly support legislation to enhance the energy resiliency of buildings in Oregon. I urge you to support SB 868, 869, 870, and 871.
