

My name is Christina Eastman I testified on Monday the 13th of March 2023 at the Oregon State Capital on Bill SB85-1

I am adding to my testimony!

Please find attached photos that were taken on 3/13/2023 on and around the site of the proposed J-S Ranch. This is the kind of flooding that happens all throughout the winter.

Hundreds of thousands or MORE Canadian geese land, feast and rest in our fields in Oregon.

Avian flu is a major concern, we have had cases here in Linn and other counties this past year. The geese have always been here and always will, another reason why "Big Chicken" Should not be here in Oregon.

One more reason and I'll rest my case. These massive Chicken facilities are notorious for catching fire! Grass seed fields, houses, barns filled with livestock surround one location, another is butted up to the forests of McCully Mountain and the Santiam Canyon, our volunteer fire department's could never out the fires in time. No local farmer would consider putting them here, taking a risk with so much to lose!

I thank you for your time and reviewing my testimony.

Sincerely  
Christina Eastman
