

Submitter: Dan Ryan

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB847

This is a very important bill that will make larger units, give each unit more sun light, and improved air quality. The buildings are safer, and open up a new designs and improve visual appeal of buildings.

This would go a long way in updating and improving our outdated building codes that have been holding Oregon back in improving our housing quantity and quality.
