

Submitter: Derek Becker  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3214

Members of the Committee,

I strongly oppose HB 3214 as it appears to be a solution in search of a problem. Animal cruelty is already illegal, animal mistreatment is already illegal and animal neglect is already illegal. It also appears that the main target of this bill is rodeos. If that is the case, be honest and then let's debate that. But understand that rodeos are part of our culture and heritage. I am sick and tired of the uber legislation of our lives. Please stick to the core duties of government; protect our people from crime, defend our borders against invaders, protect and defend our Constitution (which is what you swore an oath to) and stop with the micro management of our lives.

Respectfully
