

**I OPPOSE [HB 3382]...As written. Oregon needs Deep Water Ports but not at the expense of Land Use Laws.**

[HB 3382] codifies an "end-run" around Oregon's Land Use Laws.

The Land Use Laws could be redefined throughout Oregon.

With Land Use Laws neutered, rivers and creeks could face deleterious effects of development affecting fish and other aquatic wildlife.

Economic development would become rampant, destroying farmlands and possibly material intrusions into forests.

There would be rampant Residential development, increases in traffic, congestion and pollution.

In short, Oregon could resemble the San Francisco Bay Area in California in a very short time.

David S. Wall

Mr. Oregon Concurr and says, "Strengthen Land Use Laws to protect Oregon."
