

Submitter: Jaime Roth

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3214

While not an Oregon resident, I am a frequent traveler to your state and will be spending time in Newport Beach in May. I strongly support this bill, which would eliminate the cruel practice of using certain animals, including elephants, big cats and bears, in circus acts. Let's end this barbaric practice. Circuses that use willing human performers, like cirque du soleil and cirque d'italia, have gotten with the times and should fully replace any remaining vestiges of a more barbaric past. Thank you.
