

Submitter: Betty Milliman  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3214

Only ignorance would be supportive of this bill. Animal husbandry is something ignorant people should not interfere with. You will alienate all rural Oregon and half of the urban populations if you pass this. It will cause more harm than you can imagine to the animals, and your political carriers. It is a violation of the 5th and 14th Amendments that protect property rights, and animals are defined as property.
