

Submitter: Darlene Raish

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Talking about back-street abortions, this bill is guilty. Children seeking a "quiet" abortion without the knowledge of their parents are subject to a myriad of complications, particularly with chemical abortions. Parents need to be part of any medical procedure their child may have. The State of Oregon is NOT the parent of minor children. It cannot offer proper emotional and compassionate support needed.
