

Submitter: Donaca Fouts

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Dear Legislator,

I oppose HB 2002. I am a parent of 5 kids, all are under the age of 18. I'm appalled that this bill allows gender-affirming treatments without parental consent at the young age of 15 and it removes doctors who perform the procedures from being denied mal-practice insurance or getting their license revoked.

Most 15 year olds don't even know what they want to choose in life for their career, how do we expect them to live the rest of their lives with something that they can never reverse!

Donaca Fouts
