On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3382

Dear Joint Committee on Transportation,

This is appallingly broad and sloppy way to approach a very special estuary and port...and it can be drug all up and down the coast once permitting can be neglected.

Permitting is important. Your rush to hear this is suspect at best.

Running roughshod over our land use laws is shameful.

In many aspects this is a frightful idea and I as a voting citizen of Oregon and a resident of planet Earth object.

You are all disgraceful thoughtless operators, estuaries are some of he richest life filled per inch areas on earth.

Disrespectful careless at best, your lack education is showing..most of all. ... and you are for hire.

this is sad

rethink this

we are watching.
