Measure: HB2002

I am writing in opposition to HB2002. We are damaging our children for no good reason. Children cannot make changes that will affect them for a lifetime when their brains and bodies are still maturing. Even without this fact we should not be doing so called sex change operations because it's not possible. All we are doing is making them into eunuchs because up to now, we can't actually change someone's sex. Thank you for your consideration.
