

Submitter: Daniel Dewey

On Behalf Of:

Committee: House Committee On Rules

Measure: HB2004

1. Would you vote for this bill if the majority of the population was Democrats?
2. Would you vote for this bill if the majority of the population was Republican?
3. Everyone should only get one vote. There is no need to vote for a first choice and then a second choice. One vote only!
4. Why change what we already have? It appears to me that one party is out to get all the power and control the rest of the population.
I and my wife say NO way do want this bill to pass!!
