

Submitter: Rick Alexander
On Behalf Of: All free people
Committee: House Committee On Judiciary
Measure: HB2006

“What is the age of an adult?”

What is the age of an adult? 18? 21? 16? Make up your minds. If you insist on creating legislation that restricts a person from doing something until the age of 21, then all of the things need to be restricted or required until the age of 21. Military service. The right to vote. Selective Service registration. The ability to get a driver's license. Income tax. Income tax dependents.

If you expect a person to enlist in the military, register with the Selective Service, and vote at the age of 18, why do you keep moving the right to put into one's own body whatever they choose, buy a firearm? You can't have it both ways and this is just another Second Amendment infringement. Vote no on this bill and any other that further infringes upon a free person's right to keep and bear arms.
