Measure: HB2004

I am wholly opposed to rank choice voting. It negates the voice of the voters. In the previous session of the Legislature, the voice of the people were denied the opportunity to vote on tax measures by totally bypassing that right and declaring an "emergency" without the back up information that should have been provided, like the cost of measures and the projected outcome. Now a measure is being proposed that would change the way the people have the opportunity to voice their vote. "Rank Choice Voting" muddies the will of the people to choose their candidate. Please reconsider this horrible plan.
