

Submitter: Dave Johnson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

As a law bidding senior citizen in America that has children and grandchildren that have been raised respecting firearms I am outraged and oppose this bill. It has long been a family tradition to enjoy safe firearm training for both hunting and target shooting. At some point I may want to give, or upon my death, disperse my personal firearms to members of my family. In a free country I should be allowed to do so without repercussions to myself or my family members.
