

Submitter: Jason Jackson
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This bill flies in the face of the Bill of rights and what has been upheld as our constitutionally protected rights by the Supreme Court. The making of guns by private citizens that do not have serial numbers has been challenged before and lost. New York State Rifle & Pistol Association v. Bruen, Any law that prohibits my ability to protect my self and my family is in Fact unconstitutional before its even written down on paper. You want to make me a criminal for doing something that in my right, WHY? Why not focus on the actual criminals instead of the ones that follow the laws. This law wont stop gun violence and you know it. You want to cram your beliefs down our throats in the name of what, safety and security? As Ben Franklin said "those who would give up freedoms for safety and security, deserve neither." You cannot prevent bad people from doing bad things, they will find a way no matter what you try and do. A criminal who want to kill someone with a gun will still get the gun, all you are doing is making those of us who follow the laws criminal. This action wont be tolerated. If you continue down this path you will lose. The Supreme court has already ruled in our favor before you even draft this on paper. So do yourselves a favor and find actual solutions that deal with crime instead of going after my rights.
