Measure: HB2006

To whom it may concern, HB 2005

This bill is unconstitutional period. I see all these bills you people are proposing but none of these bills talk about cracking down on actual criminals. These bills will absolutely do nothing to curb crime anywhere, because guess what criminals do not follow laws. I'm really disappointed in all of our representatives in our great state of Oregon who will not stick up for there constituents and uphold the constitution of the state of Oregon and the United States of America ????? Restricting law abiding citizens of there constitutional right is not going to change anything alls it will do is prevent us from defending our God given rights to protect us our families and our fellow constituents. My firearms have not killed anyone nor have I, because I'm not a criminal. The cities and mayors have defunded police in our state and it has done nothing to curb crime, it has actually made crime more widespread. Why are we not prosecuting criminals instead of letting them go what is really going on in this state and country. I myself am a law abiding citizen and I'm not going to allow any more infringements on my god given rights and if you people do not stand up and listen to your constituents then you all will be voted out. It's time to stand up for your constituents and the misinformed other side and speak up and speak the truth these laws will do nothing to help curb violence by disarming law abiding citizens who will become criminals with these assinine bills... I have a child who hunts with me and will be considered a criminal with this bill.. We can send an 18 year old into battle in the military but we can't trust them with firearms why is that. For one we need to teach firearms safety to our children within our household and in school. Kids used to have shotguns and rifles in there pickups in the old days and we never had school shootings it's time to remove gun free zones and arm our teachers it is the only way to prevent this from happening also we need to stop politicizing our these so called mass shootings and start removing the gun free zones and let it be known there are armed teachers and volunteers here it will stop

Thank you and I hope you do the right thing and stand up for our Constitutional rights...
