

Submitter: Mark Cosby
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

... Like, HELLO Sen. Judiciary !

Directing Department of Justice to study ways to address unlawful possession of firearms ?

My guess is they have been studying "crime" since maybe just before 1859... maybe since Gov. Lane in 1851 ?

2 yr ago my Pickup was stolen in front of Portland Airport Red Lion inn... along with a gun...

the felon who committed a felony while in possession of a stolen weapon... would be a most perfect case study IMO.

I just did my own follow up and this is what I found.

Jake Swegel used a pipe bomb to blow up a RV (this was said to be attempted murder) 2nd he had a pipe bomb factory in his apartment...

Facts are he was arrested, released on own resonance and given a court appointed attorney... last July he was sentenced.

1 count arson (result of pipe bomb he used and made).

1 count bomb factory....

POSSESSION OF STOLEN WEAPON BY A FELON AND IN COMMISSION OF A FELONY..... (CHARGES DROPPED)

Jake got 3 yrs probation for other 2 charges to offend again... and probably again as he suffered no consequences for his actions. :(

Department of Justice... must surely have a case load of study.

Just maybe , to fund a study is ignore the truths concerning tax funded Legislative, Judiciary and Executive snafu's :(

Maybe the reality is we ignore the truth to a politically motivated agenda ?

Maybe Legislators should be required to complete 2 yrs college and study the Constitution, Criminal and social Behavior and fiscal responsibility before they can write or vote law ?

Maybe a study could be funded to see if Legislative process has become toxic to RULE OF LAW ?

Maybe a study could be funded to see if Judiciary lacks funding needed to enforce Law ?

Maybe a study could be funded to see if the Executive Branch is destructive to rule of law when... Executive shuts down 2 prisons, puts National Guard in empty capitol during time of rioting in the streets of major Cities of Oregon.

Maybe we could fund a study to see what over 1,000 murder and rapists who the

Oregon Executive Branch released just months ago are doing today ? (course NY City just did a study as did Yolo Co California on recidivism rates).

Because my experience above tells me Judiciary truly don't care about felons possessing guns unlawfully :(
