

I OPPOSE [HB 3558]...This is another "bad" piece of Legislation.

[HB 3558] states, "Modifies statutory structure for governance of child care by changing references of Office of Child Care to references to Department of Early Learning and Care."

[HB 3558] is another example of the "state subsidized childcare."

The cost of this program will be very expensive.

[HB 3558] substitutes parental responsibilities at taxpayers' expense.

The State of Oregon's Auditor should out this program on their work plan.

David S. Wall

Mr. Oregon Concur.
