

Submitter: Derek Becker
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

Members of the Committee,

In this Country we consider those that have achieved the age of 18 to be adults. They can vote, execute contracts, buy houses, take out loans, join the military and go to war using guns and more. I see legislation (or proposed legislation) to lower the age of consent for abortions, lower the voting age to 16, lower the age for sex change procedureds and more. But, utilizing the logic provided in this bill, adults between the ages of 18 and 21 are not mature enough to own or possess firearms. Absurd!

Please kill HB 2006 it is simply hypocritical.
