Measure: HB3214

Animals were not created for our amusement. They are living beings with emotions, intelligence, and a profound desire to please. Humans have take. Advantage of this for far too long and made money exploiting these beautiful creatures while treating them like property- **THEY ARE ENSLAVED**. We must stop this. Elephants are one of the most intelligent animals on the planet and the way they've been treated is unconscionable. Please don't allow this to continue
