An Asylum seeker for freedom of religion

Dear Sir/Madam

I am Meshal an asylum seeker to practice my freedom of religion in the land of freedom the United States. I don't have place to live and renting small room which I am struggling to pay the rent. I would love to share my testimony to fund the community of faith. I am not eligible for any Federal assistant and my case is pending. I get help from charity and my church helping me and others. We need this fund to help people who are beaten by the discriminatory manmade laws that prevent minorities, refugees, and asylum seekers to have right for basic need housing. It is important to have equity and inclusion. The system designed not to help everyone, and it is time to work as a teamwork to end homelessness. Thousands of asylums and refugees' cases impacted by the Trump administration and covid 19 pandemic. I hope that supporting affordable housing is the key answer to prevent or reduce homelessness in Oregon.

Sincerely,

Meshal Al
