Testimony on HB 2006
Kevin Starrett Director

[HB 2006](#) Prohibits 18,19, and 20 year olds from owning any modern firearm. That includes any firearm they *lawfully* bought and currently own.

There are no grandfather provisions. If a person under 21 *lawfully* owns any modern firearm they will be criminals when this bill goes into effect, period.

This is not a ban on future sales or transfers. It is an outright prohibition and government theft of private property.

2006 is a disgraceful and hateful attack on young law-abiding Oregonians. Oregonians who the left has no concerns about sending off to other countries to die under the command of a mentally declining pathological liar who occupies the White House.

Off course Oregon Democrats are more than happy to

allow 16 year olds to vote and even younger children to permanently, sexually mutilate themselves, but would send a 20 year old to jail for being in possession of a rifle she legally purchased.

Once again Oregon's Democrats display their bottomless lust to destroy anything positive and replace it with mindless bigotry and hatred.

Furthermore 2006 is clearly ex post facto. A little detail that Democrats choose to overlook. It's perfectly legal until we come and arrest you for it.

As with most of what Oregon Democrats try to ram down the throats of Oregonians, HB 2006 is unconstitutional and will be overturned...eventually, and at great expense to Oregon's abused taxpayers.
