

Submitter: Josie Alexander

On Behalf Of: Rn

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2665

I oppose HB 2665. Price setting is not the job of OHA. If nurses want to make more \$ then they can go work for an agency. Agency nurses should not be punished because staff nurses make less. There is a great need for temp staffing . These nurses are courageous, entering into an unknown building , working with people they don't know , all because they want to help .
