

I OPPOSE [HB 3575]...

[HB 3575] states, "Instructs Water Resources Commission to make funding decisions for loans and grants awarded from Water Supply Development Account twice each year."

"System for scoring and ranking projects" [ORS 541.677]: https://oregon.public.law/statutes/ors_541.677

Public Benefit categories [ORS 541.673]: https://oregon.public.law/statutes/ors_541.673

One (1) Funding cycle per year is more than adequate to evaluate "loans and or grants" made each year.

Emergency "loans and or grants" can be tendered for consideration.

What is also needed is language negating the shill of, "Wokeism- Environmental Social and Governance (ESG)."

David S. Wall

Mr. Oregon Concur.
