

Submitter: Michael Taylor

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

What makes America great is that we believe in self govern. We don't need a big brother government. We should encourage local laws to support the desires and wishes of those who live there. We cannot truly enforce the gun-free zones as it stands today. Please consider the wishes of localities in determining their future and how they wish to protect their constituents. Less government interference and enforcing our constitution is what you should focus on. Clean up Portland, Salem and all points in between, override the illicit drug laws, take care of the mental health and make Oregon attractive to investment.
