

Submitter: Rebecca Roth

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Those who have SEXCHANGEREGET are numerous and many commit suicide. It is appalling that this topic is treated with no apparent care for the ruined lives created by mutilating the genitals of people, but especially children. All the people who tell their stories on SEXCHANGEREGET.com should cause you to stop this bill.

All the babies that are getting killed will cry against you at the judgment seat of God for their deaths at the hands of merciless Oregon legislators. Your No vote is required.
