Testimony on HB 3513  
Kevin Starrett Director

House Bill 3513 changes the requirements for classes that qualify for Oregon concealed handgun licenses and will require them to include *“the use of firearm hold agreements for firearm suicide prevention were components “*

However, while NRA, law enforcement, and hunter safety classes are available nationwide they will not, of course, include information on “hold agreements” that only exist in Oregon.

Therefore none of those classes which currently qualify as training for Oregon CHL’s will be acceptable for a CHL application.

While well intentioned this bill needs to be amended to remove those requirements.
