

Submitter: Diana Yates

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

More than ever it is important to abide by the present land use laws, which were decided by an arduous process with full consideration of the land and the people. Continual push by individuals and/or developers to skirt these laws erodes trust and confidence in laws themselves and the lawmakers, We currently have enough empty land within the urban reserves that meets the needs for building of affordable housing that is near established infrastructure that neighborhoods need. I encourage this committee to vote NO on SB 1051.
