

Submitter: Deborah Knapp

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3214

Dear Judiciary Committee Members-- This bill is a grievous injustice to those who truly care for animals. There are already existing laws that address the problem of animal abuse. HB3214 is overreaching and adversely affects those who are in good faith educating others about the welfare and benefits of raising animals. The bill aims to treat citizens who own animals as though guilty until proven innocent, which is itself an injustice. I find this offensive. I urge a strong no on this unjustified bill. Thank you for your time and attention.
