Measure: HB2006

Chair Bynum and Members of the Committee -

HB 2006 is a common-sense measure to keep many guns out of the hands of people whose brains aren't fully formed. I encourage you to support it.

To make my point, I'd bring up a perhaps unexpected example: rental car companies.

Rental car companies know that human brains and our ability to understand risk aren't well-formed before age 26. They refuse to rent cars to such folks due to the risk.

This bill works to keep certain firearms out of the hands of teenagers and 20-year olds.

If rental car companies understand the risk of people for many more years, hopefully you can understand the best thing to keep us safe is to support this bill.

Thank you for your consideration, and service to Oregonians.

Regards,

Evan Manvel
