

Submitter: Emily Pollen

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Dear Representatives,

I am writing to you because we must urgently protect trans people everywhere. There is an onslaught of terrifying legislative attacks against the community, and we need to protect them now. HB2002 will take an essential step forward and help protect access to gender-affirming care in a time where many states are trying to take this away. Please support this bill and help be a trailblazing state that looks after all its constituents, including the trans ones.
