

Submitter: Donna Dempsey

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

Oregon has one of the most land restrictive laws and we need to ease up and expand some of the UGB to create housing as that is in short supply. As a Realtor it has become extremely difficult to find home for the first time buyers. We need more land to build on which will take the pressure off the market and make housing more affordable.
