

Submitter: Chad Wallace  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

Hello,

I oppose HB 2007. This is because it takes the public choice out of the public's hands and turns it over to the state. It says in the description of the bill, "Public", that includes everyone. If I can legally do something, I should legally be able to do it in a public building or space, because I am part of the law-abiding public! Limiting access to these places will only harm the people of this great state. If it is such a great idea, why not make this law apply to the police and military? Is it because you say "they are here to protect us"? What about me protecting myself or other people? Just get rid of this bill, it's the best thing possible for the state and its people.

Thank you,  
Chad Wallace
