

Submitter: Ron Hyde

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Oregon law makers: This bill is utterly useless. Please research the statistics on "home made" firearms and crime, you will see that these firearms make up 0.005% of firearms crimes (that's in 20,000). OK, great assuming the ban passes, what about the other 19,999 guns used in crimes? PLEASE do not support this bill, it will make perfectly responsible citizens become felons. Anyone with any common sense would not even consider this bill.

Sincerely, Ron Hyde
