

Submitter: Deborah Curtis
On Behalf Of: Myself
Committee: House Committee On Judiciary
Measure: HB2005

We must do all we can to crack down on ghost guns. Who, but a criminal would want an unregistered, untraceable weapon? Looking the other way at this practice effectively renders all of our other sensible gun laws null and void. We all agree that motor vehicles and their operators should undergo registration, yet we allow deadly weapons to be produced and used without any oversight? I urge you to support HB 2005 and close this loophole. Thank you.
