On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Leaving parents out of their children's life changing decisions is not ok! It's a parents duty to love and protect their children, they can't do that if they're left out. Let children be children. 70% of people who transition regret it within 10 years and wish they could go back. These surgeries can't be fully undone.
