

Submitter: Joe Neron  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

Thank you for considering legislation regarding untraceable "ghost guns".

We commonly have laws that restrict our liberties to benefit the community (ie: seatbelts and motorcycle helmets). In the context of a rise in self-inflicted gun violence/suicide, accidental discharge of a weapon, crime, and gun violence, it is critical that we restrict ghost guns. Like a sawed off shotgun, a ghost gun has no legitimate need to exist. It is a way for people who should NOT have a gun to get a gun that can cause critical harm to self or others without the reasonable background checks in place now.

Please consider supporting HB 2005 and restrict the creation, transfer, possession, and use of untraceable weapons.

Thank you for your consideration.

Sincerely,  
Joseph Neron, OD
