

Submitter: Joe Neron
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Dear Judiciary Committee,

I am writing in support of HB 2007. I am an Optometrist who has worked at the Portland VA Hospital where weapons are not allowed on the premises. It is my opinion that having a gun free zone (including concealed carry) improves safety. Restricting one's right to carry in certain sensitive places is a commonsense approach to reducing accidental discharges of a weapon and gun violence.

Thank you for your consideration,

Joseph Neron, OD
