

Submitter: Tanya Shively

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am writing in support of HB 2002. When I graduated high school, abortion was not legal. In 1973 I celebrated a woman's right to have self autonomy over medical decisions. I have fought for reproduction rights my entire adult life; first for myself, then for my daughter, now for my granddaughters. I urge Oregon Legislators to pass HB 2002 and protect an individual's right to control their own body.

Thank you,
Tanya Shively
