

Submitter: Pamela Burton-Macauley
On Behalf Of: HB 2005
Committee: House Committee On Judiciary
Measure: HB2005

As a mother of four children, and the spouse of a physician who has seen the terrible effects of gun violence on children and families, I urge lawmakers to crack down on the manufacture, sale and transport of undetectable firearms. Please keep us all safe from this terrible new scourge!

Sincerely yours,
Pamela Burton-Macauley
