

Submitter: Nina Reynolds

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Please do not let this bill pass. As someone that serves the trans community I can say for certain that these choices cannot be made until someone is an adult. There are many health complications resulting from medical transitioning it is hard to believe that a teenager would be able to comprehend the short and especially long term risks involved with gender affirming care. The parents should be involved in every step of the way if a minor is needing such care. This is an absolute disaster of a proposition. Please oppose HB 2002.
