

Submitter: Alexandra Bruckner
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Oppose HB 2007 to protect everyday citizens. Criminals do not adhere to laws on the books; concealed carriers go through training and licensure and follow the law in order to obtain their CHL. This bill would create more confusion about which zones permit concealed carry and which don't and it would put citizens more at risk in those zones where law abiding CHL carriers would be hamstrung if a shooter took advantage of the "safety zone". In cases of mall, church, concert, store, and party shootings, CHL carriers are many times already at the scene and can diffuse the situation before police are even on site. Vote no to this infringement of the 2nd Amendment.
