

Submitter: Georgia Lilly

On Behalf Of: Children

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Children 15 and under do not have developed enough to know what puberty even is ,let alone know enough about changing their sex! Also using Oregon Health Plan money is a huge miss use of tax payer money. Don't we have enough use for that money verses playing with kids bodies? This is a disgrace to the State of Oregon.
