

Submitter: Richard McEwan

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

Senate Bill 1051 undermines sensible urban planning, threatens farm land, enables sprawl, and will not lead to housing for people with middle and lower incomes. The bill is contrary to the urban reserve provisions in HB 2001, just passed by the House by a large and bipartisan margin. So, ask yourself, who is to gain from this destructive bill?
