

Submitter: Molly Perino

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Thank you for all of the effort and work on issue to date. It is truly a critical task to take on to maintain the livelihood and health of our communities.

As I understand it this moratorium relates only to poultry, which is acceptable.

However any moratorium on Tier 2 poultry CAFO's should be NO less than a 5 year period.

If the -2 moves forward with a 2 year moratorium, it must include Tier 1 poultry CAFO's as well.

It is vital to protect our small local farms and residents of our rural communities. The negative implications of allowing Foster Farms to behave like a greedy corporate giant simply cannot be allowed here.

Thank you again for your work regarding this matter.

Respectfully,

Molly Perino
