

Submitter: Gregg Russell

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

I have been working with the Kingston Terrace planning as a community member for four years. I am focused on sensible urban planning and does not enable urban sprawl and still provides for affordable housing. Just look at Roy Rogers Rd. near Scholls Ferry and Barrows Rd. Where are the open spaces, community parks and natural scenic areas?

I think you get the picture!
