Committee: House Committee of Judiciary

Measure: HB2006

Dear members of the House Judiciary Committee

I am writing this testimony in a staunch opposition standpoint. Limiting the rights of a fully recognized adult citizen in our country is one of the most horrific ideas I have ever heard in my life. We ask our 18- and 19-year-olds to handle bombs true assault weaponry and multibillion-dollar pieces of equipment. We give them the power to shape the direction of our nation by voting. We hold them to higher standards than children when they break the law. If they have all these rights, then why can they not have the right to purchase any firearm they wish to? If you want to raise that right to an age restricted 21 years of age then all rights and privileges and decision-making ability, for things like joining the military, healthcare etc., must also be raised to 21 Years of age.

And even then, how does this law stop those people from attaining those firearms illegally. You will only find them after something else has happened. So again, this will detrimentally effect those that are law abiding citizens and not those that break our laws currently.

More regulation that only applies to law abiding citizens will DO NOTHING to fix the issues this state faces and will strain already limited resources. I Implore you to Oppose HB2006.

Thank you for your time.
