

Submitter: Deborah OKelley

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I strongly opposed HB 2002. This is a terrible Bill and should not be passed. Our children are our gifts from God and it is our responsibility to raise them and make decisions for them until they can make those decisions on their own. Especially decisions that relate to their bodies and those decisions are not reversible. Please do not pass this bill. Vote no
