

Submitter: SuAnn Reddick

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

I would like to submit my opinion that SB1051 should be rejected. Oregon's Land Use Laws have been a model for good land planning for decades and this bill would undermine and ultimately destroy the protections we have in place for uncontrolled growth beyond our existing UGBs. This bill would undermine our existing legal process and bring negative consequences to the rural areas surrounding the cities and towns where appropriate controlled growth should take place.
